

Loyalty Cards

Build lasting relationships with your customers while reducing paper waste and forgotten loyalty cards. You'll benefit from a new communication channel for personalized marketing and analytics.

- Dynamically update or void promotions at any time.
- Scan passes with the Smart Scan app or with NFC hardware.
- Validate and redeem promotions using built-in barcodes, QR, and NFC.
- Increase promotion redemption with time (expiry) and location-based notifications.

Stamp Cards

Customize stamp cards for any number of “stamps” and modernize how you reward customers.

Engage with customers like you never have before while saving money on costly and inefficient physical stamp cards.

Points Cards

Integrate points card programs into the wallet pass. Customers can collect and redeem points easily when they shop, by scanning their unique barcode/QR code.

Easily set up different loyalty tiers and modify content based on each tier.

Reduce your carbon footprint by providing digital versions of outdated plastic loyalty cards.
