

Ticketing

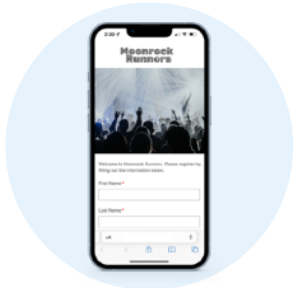

Passcreator makes every ticketing and check-in process seamless by digitizing the tickets and by enabling a direct communication channel between your business and your guests.

- Keep guests up to date with automatic location and time-based notifications.
- More than just a ticket - provide links, contact information, and more all in one place.
- Make check-ins and pick-ups quick and seamless with passes pulled automatically to your shoppers' lock screens.

How it Works

1. Purchase

Guests enter their information on a customized landing page and purchase their tickets

2. Enroll

Guests receive their ticket by email or text message to be loaded into their mobile wallet

3. Receive

Scan tickets and check-in guests using our Smart Scan app

4. Engage

Guests can receive notifications, pass updates, promotions, and more to their card.

Success Story

BDG

Passcreator is the exclusive ticketing provider for BDGs NCAA Men's and Women's tournaments at Baha Mar. Guests can either buy single-day or multi-day tickets for the tournament, which live directly on their phone and are validated using our Smart Scan app. The tickets delivered personalized engagement from the tournament holders and their sponsors directly to guests' lock screens.
